Q16 Read the following passage and answer the questions given below. (5)

The polar bear lives among ice and snow in the Arctic. It has a white fur, and is therefore also called the white bear. It has hairy soles on its feet, so it can grip well on slippery ice. The hairy soles also protect it from the cold. It feeds on seals, seabirds and fish. It dives and swims well. Sometimes it swims a long way out to the sea.

The polar bear is also known as the sea bear or the ice bear. It is hunted for its hide, fat and flesh. The male polar bear weighs from 400 to 700 kilograms and it grows to about 210 cm in length, with a tail of 7-10 cm.

1. Where is the polar bear found?

2. What are the other names for the polar bear?

3. Why is it called the white bear?

4. How do its hairy soles help it to walk on ice?

5. What all does the polar bear eat?

6. What is the polar bear hunted for?

7. What is the maximum weight of the male polar bear?
